A sequential photo lineup must either be presented by an *independent administrator* [IA](a person who does *not* know the identity of the suspect) or, if unavailable, a *functional equivalent* [FE] method must be used. Functional equivalent means (1) that the administrator cannot see and does not know the order of the photos and (2) that the witness knows the administrator does not know the order. Before beginning the photo display, determine which of these two methods is used (IA or FE) and select the appropriate instruction # 2 and cross out the inapplicable # 2.

If witness identifies any person as suspect, ask how certain he or she is of the identification.
