

Mike Diebel has been the golf professional at Goodrich Golf Course in Maplewood for almost three decades. During his time of service at Goodrich, a new clubhouse was built, changes in the course structure and layout occurred and a new water system was installed. "The course doesn't look or function at all like it did when I first started," says Mike.

Mike began his love for golf as a boy caddying at Town and Country Club where he ultimately turned pro. At Town and Country, Mike was the Assistant Pro where teaching and running tournaments were among his responsibilities. "My years at T and C taught me a lot about the game as well as the business side of golf," remarks Mike.

In addition to golfing, Mike enjoys Gopher hockey, Minnesota Timberwolves and the Vikings. He likes bowling, shooting pool and working out. Mike is a family man with a wife and one daughter. Like a good husband and father, Mike says, "Golf is great, family life is even better!"
