Project Update

Construction is progressing along on the White Bear Avenue and County Road D project. **The East I-694 Off Ramp is Now Open.** This update includes project schedule, sidewalk and concrete curb installation, and Pedestrian Lights. The notice below provides more information/status on the project.

Eureka Construction/Doyle Conner has completed the installation of the roadway Concrete Pavement. The installation of the colored crosswalks is scheduled to occur within the next week. Traffic will continue to be routed on the east side of White Bear Avenue until all of the work on the west side of White Bear Avenue is completed. This work will continue into the week of August 22nd. A Traffic Switch is scheduled on White Bear Avenue to occur the week of August 29th.

Sidewalk and concrete curbing installation is scheduled to start August 10th on County Road D and on the west side of White Bear Avenue. The contractor will be pouring all regular colored sidewalk and colored concrete boulevard over the next couple of weeks. Driveway aprons will be installed for all driveways along County Road D between Southlawn Avenue and White Bear Avenue. The contractor/County will be working with businesses for the installation of these concrete driveway aprons. This work will continue into the week of August 22nd.

Pedestrian lighting conduit is being installed along the project corridor. The contractor is scheduled to install the electrical conduits on both the north and south sides of County Road D. Most of the street light conduit installation has been installed south of Woodlyn Avenue on White Bear Avenue.

A traffic switch on County Road D is scheduled to occur the week of August 15th. The traffic switch on County Road D is necessary in order to fill the existing gap (missing new concrete) in the intersection of County Road D and White Bear Avenue (south bound). This is where the existing traffic is operating at the northwest corner of the intersection. Once this concrete is installed, Eureka will conduct the traffic switch on White Bear Avenue. Two-way traffic will be moved to the west side of White Bear Avenue. Removal of the existing east side of White Bear Avenue will then begin.

Ramsey County periodically updates the general public/subscribers on the White Bear Avenue and County Road D projects regarding the construction status through our website notification system. This system sends out, via-email, notifications of website updates to all subscribers. Please register your email address at www.co.ramsey.mn.us and click on e-Subscribe (in top left

corner), register your e-mail address, choose your areas of interest (White Bear Avenue), and you are connected!

Contact Information

We appreciate your cooperation with this project. Do not hesitate to contact us if you have any questions about this project. We have modified our construction staff for this upcoming summer. Please make note of our contacts. Contact Dan Bodelson at 651-248-0173 site inspector, Bret Wieman at 651-248-0027 Project Supervisor/Business Liaison or Jerry Auge at 651-266-7117.
